EPISODE NAME: China anti-dumping EU pork

2024/06/17 - Present

Sender: China (710)

Target: European Union (995)

Issue: Retaliation (16)

Final Outcome: Ongoing

Narrative:

On 2024/06/17, China opened an anti-dumping investigation into imported pork and its by-products from the European Union, in particular Spain, the Netherlands, and Denmark.¹ The decision was widely seen as a retaliation for the EU's announcement of preliminary tariffs on electric vehicles on 2024/06/12.²

The potential sanctions were anticipated to be costly, with the Chairman of Danish trade association Bregholm saying that the Danish pork industry "will be hit incredibly hard by potential Chinese restrictions on European meat."³

China's preliminary investigation ended on 2025/09/05.⁴ The Ministry of Commerce found evidence of dumping and approved initial tariffs of up to 62.4% on 2 billion dollars worth of EU products – most of which had few alternative markets – beginning 2025/09/10.⁵ The finalized tariff rates, released on 2025/12/16, ranged from 4.9% to 19.8%, and were set up to last for five years.⁶

These tariffs are still in effect.
