Final Outcome: Capitulation by Sender after Imposition (8)

Summary:

On 2025/09/03, the Chinese Ministry of Commerce announced tariffs on US optic-fiber companies after a months-long probe into US business practices by China.¹ The tariffs levied by the Ministry of Commerce were later removed on 2025/11/05.²

Narrative:

On 2025/03/04, the Chinese Ministry of Commerce began an investigation into US optical fiber companies' trade practices in response to pressure from domestic corporations.³ After a six month long investigation, China announced 37.9%, 33.3%, and 78.2% tariffs respectively on Corning, OFS-Felite, and Drake Communications.⁴ China had purchased over \$150 million worth of fiber optic cables the previous year.⁵ The tariffs were set to last until 2028/04.⁶

China removed the tariffs on 2025/11/05.⁷ Although the tariffs appear to have initially been imposed for economic reasons, these duties were used as a bargaining chip in negotiations with the second Trump administration, meaning their removal was not related to a change in behavior by the US companies.⁸
